Advancing Ovarian Cancer Care

From Molecular Insights to Precision Treatment

PROCORE France–Hong Kong Multidisciplinary Workshop **16–17 January 2027**

Venue CBA, G/F, Chow Yei Ching Building — Main Campus · The University of Hong Kong · Hong Kong

WORKSHOP AIM

To bring together experts in oncology, surgery, radiology, pathology and data science to advance precision care in ovarian cancer. Through scientific presentations, interactive case discussions and live demonstrations, the workshop will explore surgical innovation, HIPEC, molecular stratification, treatment response assessment and AI integration.

The meeting will also provide a forum to strengthen France–Hong Kong collaborations, develop joint research projects and identify opportunities for future clinical trials.

DAY 1 · Biology, Surgery & Multidisciplinary Decision-Making

08:30–09:00 | Registration & Welcome Coffee

09:00–09:15 | Opening Remarks & Workshop Objectives · Elaine Lee & Stéphanie Nougaret

SESSION 1 · Ovarian Cancer Treatment: European & Chinese Perspectives

09:15–10:45 | **Chair:** Dr. Bryan Li, HKU

TIME	PRESENTATION	SPEAKER
09:15–09:45	**Current & Emerging Treatments in Ovarian Cancer:** A European Perspective	Prof. Benoît You · France
09:45–10:15	**Current Emerging Treatment in Ovarian Cancer:** A Chinese Perspective	Prof. Karen Chan · HKU
10:15–10:45	**Europe–China Dialogue:** Differences, Shared Challenges & Opportunities for Collaboration	Both

DISCUSSION TOPICS First-line and maintenance strategies; BRCA/HRD-guided treatment; management of recurrence; access to molecular testing and novel agents; differences in guidelines, approvals and reimbursement; opportunities for collaborative trials.

10:45–11:15 | Coffee & Tea Break

SESSION 2 · Cytoreductive Surgery, HIPEC & Clinical Trials

11:15–13:00 | **Chair:** Dr. Jeremy Yip, Gleneagles HK

TIME	PRESENTATION	SPEAKER
11:15–11:45	**Cytoreductive Surgery for Advanced and Recurrent Ovarian Cancer:** Current Standards & Evolving Strategies	Dr. Jessie Chiu Wan Kam · UCH
11:45–12:15	**HIPEC in Ovarian Cancer:** Evidence, Controversies & Ongoing Trials	Prof. Olivier Glehen · France
12:15–12:45	**Imaging for Surgical Planning:** Mapping Disease & Anticipating Challenges	Prof. Stéphanie Nougaret · France
12:45–13:00	**Q&A**	Faculty

13:00–14:30 | Lunch

14:30–15:00 | Sponsor Demo (tbc)

SESSION 3 · Translational Bridges: Imaging, Biology & Surgery

15:00–17:00 | **Chairs:** Prof. Stéphanie Nougaret (proposed) · Prof. Tse Ka Yu (proposed)

SUBMIT YOUR CASE · AN INTERNATIONAL OVARIAN CANCER TUMOR BOARD

Residents and fellows are invited to submit challenging cases for discussion with an international multidisciplinary faculty covering medical oncology, gynecologic oncology, surgery, radiology, pathology and molecular biology.

Five selected cases · One trainee / young gynecologic oncologist presenter per case · 24 minutes per case

5 min	15 min	4 min
Case presentation	Interactive multidisciplinary discussion	Expert synthesis & take-home messages

TIME	PRESENTATION	SPEAKER
15:00–15:24	**When Imaging Underestimates Residual Disease:** Apparent CT/MRI response after neoadjuvant chemotherapy, yet complete cytoreduction remains unachievable	Selected resident/fellow · TBC
15:24–15:48	**Primary Surgery or Neoadjuvant Chemotherapy?** Integrating imaging, laparoscopy and clinical assessment	Selected resident/fellow · TBC
15:48–16:12	**Selecting Patients for HIPEC:** Linking evidence to individual treatment decisions	Selected resident/fellow · TBC
16:12–16:36	**Recurrence at the Crossroads:** Surgery, systemic treatment or clinical trial?	Selected resident/fellow · TBC
16:36–17:00	**When Findings Disagree:** Reconciling imaging, biomarkers, pathology and molecular profiles	Selected resident/fellow · TBC

17:00–17:15 | Day 1 Wrap-Up: Key Messages & Open Questions

DAY 2 · Precision Imaging, AI & Clinical Integration

08:30–09:00 | Registration & Networking

SESSION 4 · Personalizing Treatment: Molecular Profiles, Multiomics & Radiomics

09:00–10:30 | **Chair:** Dr. Inda Soong, PYNEH (proposed)

TIME	PRESENTATION	SPEAKER
09:00–09:30	**Who Benefits from What?** Personalizing First-Line Treatment in Advanced Ovarian Cancer	Prof. Benoît You · France
09:30–10:00	**Multiomics in Ovarian Cancer:** From Biological Insights to Clinical Opportunities	Dr. David Shih · HKU
10:00–10:30	**Radiogenomics in High-Grade Serous Ovarian Cancer**	Dr. Lu Haonan · HKU

10:30–11:00 | Coffee & Tea Break

SESSION 5 · Surgical Decision-Making: Current Practice & Future Directions

11:00–12:30 | **Chair:** Dr. Liu Bei, HKU–Shenzhen Hospital (proposed)

TIME	PRESENTATION	SPEAKER
11:00–11:30	**The Role of Laparoscopy:** Assessing Disease & Guiding Treatment Selection	Dr. Ngu Siew Fei · HKU
11:30–12:00	**Surgery at Recurrence:** Patient Selection & Multidisciplinary Strategies	Prof. Olivier Glehen · France
12:00–12:30	**What's Next in Ovarian Cancer Surgery?** Emerging Approaches & Research Priorities	Prof. Tse Ka Yu · HKU

12:30–14:00 | Lunch

SESSION 6 · Advanced Imaging & AI for Peritoneal Disease

14:00–15:00 | **Chair:** Dr. Elaine Lee (proposed)

TIME	PRESENTATION	SPEAKER
14:00–14:20	**Imaging the Peritoneum:** The Role of MRI, Current Challenges & Innovations	Prof. Vincent Vandecaveye
14:20–14:40	**AI-Assisted Segmentation of Peritoneal Disease & Estimation of the Peritoneal Cancer Index** — Live Demo	Dr. Charles Berger / Rahul Singh
14:40–15:00	**Functional MRI for Treatment Response Assessment**	Dr. Elaine Lee · HKU

DAY 2 · Clinical AI Integration & Collaboration

15:00–15:30 | Coffee & Tea Break

SESSION 7 · Translating AI into Clinical Practice

15:30–17:00 | **Chair:** Dr. Haiming Li, Fudan University Shanghai Cancer Centre

TIME	PRESENTATION	SPEAKER
15:30–16:00	**From Model to Workflow:** Integrating AI into PACS & Clinical Reporting	Dr. Keith Chiu · HKU/QEH
16:00–16:30	**Federated Learning:** Enabling Cross-Border AI Collaboration	Dr. Liangqiong Qu · HKU
16:30–17:00	**Medical Vision–Language Models & Agentic AI:** Towards Integration into the Tumor Board	Dr. Chen Cheng · HKU

17:00–17:30

CLOSING SESSION · From Shared Ideas to Joint Projects

Advancing ovarian cancer care through multidisciplinary collaboration across France and Hong Kong.
